*Benefiting The Gavin R. Stevens Foundation

The Gavin R. Stevens Foundation is near and dear to the IREM Inland Empire Chapter. We have partnered with them for several years and are pleased to be a part of helping Gavin and others with Leber's Congenital Amaurosis. Four year old Gavin Stevens is completely blind with LCA and there is currently no cure. The funds generated by the foundation goes toward research and treatment for Gavin, and others who live with LCA. There are only about 3,000 LCA cases in the United States. Please join us in support of The Gavin R. Stevens Foundation! You may visit the foundation at <http://www.gavinsfoundation.org>
